

The Dance Bank Dance Parties!

**THE
DANCE
BANK**

What are dance parties?

Is your wee one dancing mad?

Would you like to book a party for them where they can do something they love with their friends?

We're offering 3 different tiers of party packages which will all include:

- **3 hours of studio hire including set up and clean up of the party**
- **Music & Speaker system**
- **An hour of dancing with a trained, qualified and enthusiastic teacher**
- **A video of the dance routine to send to party guests afterwards**
- **An extra bonus activity chosen by you**
- **A super fun and stress free day where your dancer can make amazing birthday memories.**

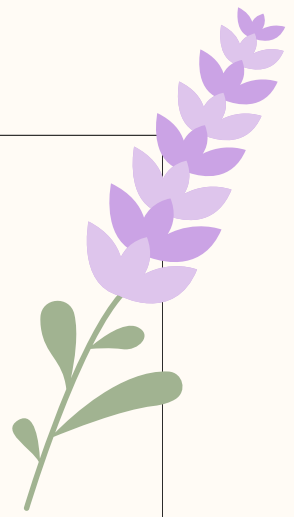

So we'll set up the studio before your party (aligning with your chosen theme), we'll welcome guests in and play a few games to make sure we all know each other, we'll get warmed up then start learning our dance party routine! (The routine can also match up with the theme!) After we've filmed the dance from lots of cool angles, our guests will be ready for some food. They'll head through to the smaller room where our staff will have the food all ready for them and then tuck in! After this, we'll have an extra bonus activity before having some birthday cake and getting ready to go home after an exciting day!

Parties can be booked with us for any day of the week depending on staff and studio availability and we can create any theme you like! (unicorns, outer space, under the sea, or just a general dance party!)

(All details of what is included in each package are on the following pages).
